- ▶ **Wellness Essentials™ Joint Focus®**
- ▶ **Wellness Essentials™ for Pregnancy**
- ▶ **Wellness Essentials™ Blood Sugar Support♦**

Extraordinary Supplements
in Convenient Packets

Patient Specific Formulas

The Essence of Wellness Essentials

Wellness Essentials guarantees daily intake of essential vitamins, minerals, and essential fatty acids. Daily nutrition is more than a multivitamin—even the best multivitamin. Adequate levels of omega-3 essential fatty acids (EFAs) are critical for every patient.

Each Wellness Essentials combines a comprehensive multivitamin/mineral with purity-certified EPA-DHA to provide an ideal foundation for a daily nutritional program.

To complement this foundation are some of our best formulas to address specific health concerns for men and women, and to help them stay active and feeling good.♦

Just 2 portable packets a day (or just 1 for Wellness Essentials for Pregnancy) mean the ultimate in convenience for your patients. No bottles or daily counting—and at a greater savings than if purchased individually.

Nothing this simple has ever been as complete!

Wellness Essentials™ for Pregnancy

Advanced Support for Preconception through Nursing♦

For women considering pregnancy, those already pregnant, and for nursing mothers.♦ This advanced combination of formulas provides what many traditional prenatal multivitamins are missing.

Advanced Micronutrient Supplementation with a Gentle Touch

Each packet supplies:

- Calcium/Magnesium Formula (2 tablets)
- Choline Formula (1 softgel)
- Advanced Prenatal Multivitamin/Mineral (2 tablets)

Featuring inositol & 1 mg folate

Healthy Mood & Fetal Development Support♦

EPA-DHA Extra Strength® Lemon-Flavored (2 softgels) & DHA LemonGels™ (1 softgel)—Supporting overall health and a healthy mood pre- and post-delivery for mother, as well as promoting healthy fetal development of eyes and brain.♦

Glucosamine Sulfate 750™ (2 tablets)—Supporting joint health and integrity♦

Recommendation: 2 packets daily.

Wellness Essentials

Ultimate Quality. Ultimate Convenience.

The Wellness Essentials line features premier formulations from Metagenics that set the standard for excellence in product quality and development. There's a lot that goes into the making of every single Wellness Essentials product—and no one else can match what we put inside.

Formulated for Bioavailability

Who else makes a multivitamin/mineral formula that includes a special combination of ratio-balanced B vitamins, carotenoids, and tocopherols? And only Metagenics can offer the gentle form of magnesium (MetaMag™) and body-ready folate (ActiFolate®) that are featured in Multigenics® Intensive Care formulas, along with amino acid chelates designed for optimal bioavailability.

Well-Researched

Metagenics is the only company in its niche to have an on-site clinical research facility—the Functional Medicine Research CenterSM—to test formulas in a clinical setting. From Cal Apatite to Kaprex, case studies and clinical trials demonstrate the effectiveness of these carefully formulated products. And no one else has an on-site proteomic lab to develop the optimal combination of naturally derived ingredients.

Rigorously Tested for Purity

You can feel secure in recommending Wellness Essentials—it's all about purity.

- Purity-certified essential fatty acids from cold water fish
- Purity-certified MCHC
- Purity-assayed glucosamine sulfate
- Herbs selected and tested using the MetaBotanica® Method to ensure origin, authenticity, quality, purity, and optimal effectiveness in tablet form

GMP-Certified Manufacturing

Wellness Essentials formulas are manufactured and handled in facilities that have pharmaceutical certification or are certified for good manufacturing practices (GMP) by the National Products Association (NPA), NSF International, or the Therapeutic Goods Administration of Australia (TGA). Very few companies meet these rigorous guidelines that help ensure that the quality you and your patients pay for is the quality received.

Patient-Friendly

“The patient's best interests must be served.” That's been our motto for over 20 years. Those “interests” also include patient preferences. Which is why we offer EPA-DHA formulas with enteric-coating or lemon flavor to promote patient compliance. It's also why we developed the Wellness Essentials line—to make comprehensive nutrition as convenient as possible: 1 or 2 portable packets per day, 1 month supply containers, and at a cost savings to the patient.

◆ These statements have not been evaluated by the Food & Drug Administration. These products are not intended to diagnose, treat, cure, or prevent any disease.

These certifications for Good Manufacturing Practices demonstrate the Metagenics commitment to purity and quality.
