

Ceralin Forte

Foundation Neuroprotection Formula

Ceralin Forte is formulated to provide multidimensional support for brain and nerve health by protecting against oxidative stress, as well as supporting healthy mitochondrial function, methylation, homocysteine metabolism, and circulatory function. Designed to act within the brain and nervous system, this advanced formula features L-5-MTHF (a bioactive form of folate), NAC, and acetyl-L-carnitine—which research suggests may be able to cross the blood-brain barrier—along with concentrated grape seed extract to support vascular and nerve health

Why Ceralin Forte?

- Designed to support healthy cognitive function and central nervous system health
- May help protect the brain and nervous system from oxidative stress
- May help maintain overall neurological health by supporting healthy mitochondrial function, methylation, homocysteine metabolism, and circulatory function
- Features calcium L-5-methyl-tetrahydrofolate, which research suggests may be able to cross the blood-brain barrier
