

Introducing Golden Fusion™

Highly Bioavailable Curcumin with Grass-Fed⁺ Collagen Peptides

What is turmeric?

Turmeric is a spice that has been used for centuries in recipes, tinctures, and teas. As the main ingredient in “turmeric tea,” or “golden milk,” a traditional recipe popular throughout Asia, turmeric is usually blended with coconut milk and other herbs and spices such as cinnamon and ginger for warmth and flavor, and a pinch of black pepper to enhance bioavailability. Curcumin is a well-known and researched component of turmeric.

What is collagen?

As one of the most abundant structural proteins in the body, collagen is responsible for the structure of skin, connective tissue, tendons, bones, and teeth.¹ Egg yolk² and gelatin³ are some of the ways that collagen can be obtained through diet.

A fusion of ingredients

Golden Fusion is a modern take on the centuries-old golden milk recipe that is both great tasting and convenient. Golden Fusion features CurQFen®, a highly bioavailable form of curcumin with fenugreek, along with grass-fed⁺ collagen peptides. Organic herbs turmeric, ginger, cinnamon, cardamom, pepper, and moringa, in an organic coconut milk powder base, round out this innovative formula.

Why Golden Fusion?

More than just turmeric and collagen, Golden Fusion is formulated using high-quality, targeted ingredients.

- Features CurQfen®, a unique, patented, stable curcuminoid (from turmeric) and galactomannan (from fenugreek) compound designed for increased bioavailability.
- Curcumin, a major curcuminoid found in turmeric, may beneficially modulate signaling molecules that influence immune function.
- Offers VERISOL® Bioactive Collagen Peptides® that help support skin and nail health.
- Combines turmeric with collagen peptides for an innovative twist on traditional golden milk.

How to enjoy Golden Fusion

Mix one scoop with 150 ml of hot water or your favourite milk (cow's, coconut, or almond) for a great-tasting and comforting way to supplement your diet with curcumin and collagen peptides.

Form: 270 g Powder

Serving Size: 1 Scoop (9 g)
