WHAT PHYTOGANIX IS AND WHAT IT IS USED FOR

PHYTOGANIX features 20+ whole foods in each serving, including: organic fruits, organic vegetables, organic flax seed, organic chia, organic quinoa sprouts, herbs, plant enzymes, prebiotics, and probiotics. PhytoGanix contributes to the normal functioning of the immune system and helps to normalise the microbial balance in the intestines, thereby improving the functioning of the digestive tract and gut.

BEFORE YOU TAKE PHYTOGANIX

If you are taking any chronic medication, do not use this product without consulting your healthcare provider. Do not take **PHYTOGANIX** if you are hypersensitive (allergic) to any of the ingredients. If you have allergies, be sure to check with your healthcare professional before taking this supplement.

Antibiotics: Take your antibiotics 2 hours before or after taking **PHYTOGANIX**. This medicine has not been evaluated by the SAHPRA for quality, safety, or intended use.

PREGNANCY AND BREASTFEEDING

Safety during pregnancy and breastfeeding has not been established, consult with your healthcare professional before use. If you are pregnant or breastfeeding, think you may be pregnant or are planning to have a baby, please consult with your healthcare professional before taking this supplement.

TAKING OTHER MEDICINES WITH PHYTOGANIX

Complementary medicine products contain ingredients which may interact with some medication. If you are taking any chronic medication, do not use this product without consulting your medical practitioner. Consult a registered healthcare professional if you are taking any other medicine (such as lithium) including chronic, complementary, or traditional medicines; or have high blood pressure, glaucoma, and/or detrusor instability (overactive bladder syndrome). Consumption with other medicines (e.g. bitter orange extract, synephrine, octopamine, ephedra, ephedrine) which increase blood pressure is not recommended. Use of caffeine may result in sleep deprivation. Consumption with other caffeine-containing products or foods (e.g. medications, coffee, tea, colas, cocoa, guarana, maté) is not recommended.

HOW TO TAKE PHYTOGANIX

Do not share medicines prescribed for you with any other person. Always take **PHYTOGANIX** exactly as described in this leaflet, or as your doctor, healthcare provider has instructed you. You should check with your doctor, pharmacist or healthcare provider if you are unsure.

DRIVING AND USING MACHINES

It is not always possible to predict to what extent **PHYTOGANIX** may interfere with the daily activities of a patient. Patients should ensure that they do not engage in activities relating to requiring mental alertness, judgement and/or sound co-ordination and vision e.g. driving, riding, flying, sailing, operating machines/equipment, until they are aware of the measure to which **PHYTOGANIX** may affect you.

Directions for use:

Adults: Take one (1) scoop one to two times daily, or as directed by your healthcare practitioner. Stir or mix 1 scoop (10,4 grams) in 240 ml of water or juice until blended.

Do not take more than the recommended dose.

IF YOU TAKE MORE PHYTOGANIX THAN YOU SHOULD

In the event of overdose, consult your doctor, pharmacist.

Should none of these be available, contact the nearest hospital or poison control centre.

IF YOU FORGET TO TAKE PHYTOGANIX

Do not take a double dose to make up for a missed dose.

POSSIBLE SIDE EFFECTS

PHYTOGANIX may have side effects.

Should you have any of the following diagnosed conditions, consult with your healthcare professional before use: Bleeding disorders, Diabetes, Thyroid dysfunction, Kidney stones, Autoimmune disorders, Hormone-sensitive conditions, Dysphagia. If you are taking the following medication, please consult with your healthcare practitioner before taking: blood clotting (Anticoagulant / Antiplatelet drugs), Warfarin (Coumadin), Antibiotics (Tetracycline antibiotics), Medications for high blood pressure (antihypertensive drugs), Medications for diabetes (Antidiabetes drugs), Immunosuppressants. If any of the following happens, stop using **PHYTOGANIX** and tell your doctor or go to the casualty department at your nearest hospital:

- allergic reactions – rash, itching/swelling (especially of the face/tongue/throat), severe dizziness, trouble breathing.

These are all very serious effects. If you have them, you may have had a serious reaction to **PHYTOGANIX**. You may need urgent medical attention or hospitalisation.

Side effects that usually do not require medical attention (report to your healthcare professional if they continue):

- nausea/vomiting, bloating, heartburn, dry mouth.

Not all side effects and interactions reported for **PHYTOGANIX** are included in this leaflet.

Should your general health worsen or if you experience any untoward effects while taking this medicine, please consult your doctor, pharmacist or other healthcare professional for advice. If you notice any side effects not mentioned in this leaflet, please inform your doctor, pharmacist or healthcare professional.

REPORTING OF SIDE EFFECTS

If you experience side effects, talk to your doctor, pharmacist or other healthcare professional. You can also report side effects to SAHPRA via "6.04 Adverse Drug Reaction Reporting Form", found online under SAHPRA's publications: <https://www.sahpra.org.za/Publications/index/8>. By reporting side effects, you can help provide more information on the safety of **PHYTOGANIX**.

STORAGE AND DISPOSING OF PHYTOGANIX

Store all medicines out of the reach of children.

Store in a cool, dark place, and below 25 °C.

Protect from direct sunlight and heat.

Store in the original packaging.

Do not use after the expiry date stated on the bottle.

Do not use **PHYTOGANIX** if you notice visible signs of deterioration.

Do not dispose of unused medicine in drains or sewerage systems (e.g. toilets).
