

UltraClear Plus pH

Nutritional Support for Metabolic Detoxification & Alkalinization

UltraClear Plus pH is formulated to provide enhanced, specialized nutritional support for balanced hepatic detoxification capacity, with a focus on alkalinization support that can influence Phase II detoxification and Phase III elimination. It features a rice protein base, which may be beneficial during times of increased food allergen exposure, and is enhanced with specific nutrients and high in antioxidant vitamins C and E, and beta-carotene to provide well-rounded nutritional support for liver detoxification.

Why UltraClear Plus pH?

- Features enhanced support for Phase II hepatic detoxification with green tea catechins, magnesium sulfate, and 7 added amino acids
- Features 13 g of OptiProtein, which includes 10 g of rice protein, and 3 g of added amino acids
- Features enhanced nutrient support with methylated vitamin B12 and calcium L-5-methyltetrahydrofolate, a bioavailable folate
- Provides enhanced support to protect against oxidative stress during the natural liver detoxification process
- Features sesame oil and 995 mg of potassium citrate to promote alkalinization and support Phase III detoxification (elimination)
- May be used in 10 or 28-day metabolic detoxification programs, as well as on a long-term basis
