

UltraFlora® Intensive Care

Targeted Relief for Occasional GI Discomfort

UltraFlora® Intensive Care is an extensively researched strain of “friendly” bacteria, LP299V®, designed to help relieve occasional irritation and bowel discomfort, promote the integrity of the gastrointestinal barrier, and support immune health.

Why UltraFlora Intensive Care?

- Designed to relieve recurring discomforts associated with the small bowel or colon, such as abdominal or motility discomfort and other minor pains
- Supports a healthy immune response
- Beneficially influences levels of certain cytokines (e.g., IL-10, IL-6), which may contribute to reducing intestinal irritation
- Potency and viability are guaranteed through date of expiration

Form: 60 Capsules
Serving Size: 2 Capsules[†]

Ingredient	Amount Per Serving
Lactobacillus plantarum 299V®20 billion live organisms ^{††}
